

AUDITING TECHNIQUES FOR AERODROMES TRAINING COURSE 0000

TRAINING PROGRAMS
JAATO

3 DAYS

AVIATION SAFETY

AED 6,300.00
(Inclusive of 5% VAT)

The course starts with an introduction to the Total Aviation System and the general concept and techniques of Audits and inspection. From there on, one reviews some key aspects and areas to be audited on all aerodromes within an audit context.

Course Benefits

After the completion of this course, students should have achieved a basic understanding of the principles and practical aspects of auditing techniques related to aerodromes. The student will also have a fair idea of important issues to look into from a safety point of view.

Who Should Attend

Individuals who are about to perform or manage audits of aerodromes, in a CAA or within the industry.
