ACI

5 DAYS

AIRPORT OPERATIONS & REGULATORY

AED 6,100.00

(Inclusive of 5% VAT)

Instructor Led Virtual Training

Safety Management Systems are a fundamental requirement for all airports as part of Aerodrome Certification. This course is designed to provide participants with an in depth understanding of SMS by providing information regarding the requirements and composition of an SMS. The course also provides information on how to implement and improve Safety Management through Safety Monitoring, Training and Documentation. The classroom based studies are supplemented with Case Studies and Group Exercises to enable delegates to put their learning into operation. (Please note course fees indicated are for ACI Members/ACI World Business Partners. Please contact us for non-member pricing.)

Course Benefits

- Demonstrates how an airports' SMS can be improved
- Explains how to develop a Safety Case
- Determines the importance of Safety Culture in Safety Management
- Describes how Human Behaviour can effect Safety Management
- Provides guidance on how to promote Safety Awareness though education and communication

Who Should Attend

- Airport Operations and Safety personnel
